43

CONTRACTOR OR SUBRECIPIENT ?

The Elk Hill Housing Program is constructing their first rental housing project. They think having maintenance performed by another housing entity near the project would be the best approach to maintain the project.

44

CONTRACTOR OR SUBRECIPIENT?

The First People's Housing Department is expanding their operation by providing housing in the remote region of their service area. To reduce administrative costs associated with travel they think it would be more cost effective to have a property management firm located near the project manage the lease and occupancy of the housing development.
